

FORMAL COMPLAINT CONCERNING THE CRIMES OF 9/11 AND A REQUEST FOR AN INDEPENDENT NEW JERSEY INVESTIGATION

By [David R. Meiswinkle, Attorney at Law](#) *I

New Jersey has legal jurisdiction for the events of 9/11:

- a. 681 New Jersey victims, including thirty-seven New York and New Jersey Port Authority officers
- b. Seventeen of twenty-one counties in New Jersey had victims.
- c. Port Authority of New York and New Jersey owned the World Trade Center complex.
- d. Commercial airliner was hijacked out of Newark, New Jersey.
- e. Anthrax attacks were in Princeton and Hamilton, New Jersey.
- f. Alleged terrorists lived, trained, and conspired in New Jersey.

Formal Complaint for 9/11 investigation in New Jersey

The 9/11 Commission through its Executive Director Philip Zelikow and the National Institute of Standards and Technology(NIST) through its lead investigators Shyam Sunder and John Gross appear to have generated reports which obstructed a true investigation into the events of 9/11. If their actions to mislead are intentional they amount to fraud and criminal obstruction of justice, if not, they are a product of gross negligence. New Jersey can do better investigating these terrible events. The State of New Jersey through its Constitution and laws has the jurisdiction and legal right to investigate crimes that affect its citizens and property. The 10th Amendment of the United States Constitution grants that powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people. Federal government reports by the 9/11 Commission and the National Institute of Standards and Technology (NIST) do not appear to be trustworthy. Therefore, it is necessary that the State governments conduct their own investigation if truth and justice is to be realized and our country healed.

A. The 9/11 Commission obstructed justice when they failed to call or subpoena key witnesses who had direct and relevant information, pertaining to 9/11, to testify under oath and create an official record, and when they failed to include relevant testimony given, into the official record, thereby creating an adverse inference of bad faith on part of the Federal government. The testimony of these witnesses should be taken, under oath, or their existing written or otherwise recorded testimony be

acknowledged, analyzed, investigated, and included in any official record*II

1. **118 NYC firemen** who informed their fire department that they heard explosions on 9/11 were never acknowledged by the federal authorities. Testimony to the 9/11 Commission was never given, nor was an official record ever made concerning the numerous explosions to which these first responders were witnesses. *1
2. **Willie Rodriguez**, a maintenance worker at the WTC complex and recognized hero, who assisted the fire department in their rescue operations on 9/11 testified before the 9/11 Commission that he heard and felt explosions in the basement of the North Tower prior to the first airplane striking the building and, in addition he witnessed serious injuries suffered from these explosions by a co-worker Phillipe Garcia. His disturbing testimony was omitted from the 9/11 Commission report. *2
3. **Barry Jennings**, Deputy Director of NYC Emergency Services, NYC Housing Authority who experienced massive explosions in WTC 7 on the morning of September Eleventh, at around 9:15 a.m., these explosions blew out stairwells and the lobby before either WTC Tower collapsed. Mr. Jennings made statements that he was, "Walking over bodies," in the Building 7 lobby. In a film by Dylan Avery, Barry Jennings states that he reported these experiences to the 9/11 Commission. This would mean that his statements to the Commission were omitted and both his statements and the fact of their omission must be investigated. Jennings died mysteriously. His death, two days before the NIST release of their WTC 7 report, which attributed the collapse of Building 7 to fire, excluding any relationship of the collapse to explosions, and as a matter of fact – NIST did not even test for explosive properties. Nor was there any mention of Barry Jennings or references to explosions in their report.*3
4. **Lt. Col. Anthony Shaffer**, Defense Intelligence Agency (DIA) officer worked in the Able Danger program which identified Mohammed Atta (alleged to be living at one time in New Jersey)*15 and his Al-Qaida cell of terrorists in the United States prior to 9/11. The 9/11 Commission investigated the federal government's obstruction and an unsuccessful government attempt to have Lt. Col. Schaffer arrested. This included the destruction by DIA of 2.5 terabytes of data pertaining to Able Danger and the purchasing by the government, for \$47K, of 9,500 first run "*Operation Dark Heart*" books written by Lt. Col. Schaffer. He gave two briefings to the 9/11 Commission who failed to pursue the case, did not follow up on his documented reports, and then his testimony along with other witnesses who corroborated his testimony and information, was censored by the 9/11 Commission and never made it to the final report.*4
5. **Coleen Rowley, as an FBI agent** working in Minneapolis, accused the FBI, in her whistle blowing memo, of hampering the investigation into terrorist Zacarius Moussaoui, and of the deliberate obstruction of this investigation, by her FBI supervisor. This investigation might have prevented the 9/11 attack. The supervisor was later given awards for exceptional performance instead of being investigated for obstructing an FBI investigation. *5

6. **Robert Wright**, an FBI whistle blower who critiqued the FBI for not heeding his early warnings to prevent a terrorist attack as well as criticizing attempts by FBI management to intentionally and repeatedly obstruct his efforts to launch more comprehensive investigations into money laundering involving Al-Qaeda terrorist cell activities in the United States. The FBI refused to allow him to testify before the 9/11 Commission, however the Commission did not insist or attempt to subpoena him, despite the fact that they had the subpoena power to do so. To subpoena this whistle blower would have been the appropriate procedure to follow in the name of justice and due process of law. *6
7. **All WTC witnesses to explosions** at the WTC complex as well as the Pentagon on 9/11.*7
8. **Dr. David Graham** – who was poisoned after reporting the activities of suspected terrorists, before 9/11, in New Orleans. His reports were ignored by the FBI. *8
9. **John M. Cole**, veteran FBI Intelligence Operations, specialist, was in charge of FBI foreign intelligence investigations covering India, Pakistan and Afghanistan. He had knowledge of certain activities that directly related to the terror attacks of 9/11. He notified the 9/11 investigation during its investigation, but never received a response. *9
10. **Dick Stoltz**, ATF, retired Special Agent was a veteran undercover agent with the Bureau of Alcohol Tobacco and Firearms, had played an important role in Operation Diamondback *30 between 1998 and 2001. The sting operation involved a group of Middle Eastern men living in New Jersey who were caught on tape in an ATF weapons sting conspiring to purchase millions of dollars of weapons including components for nuclear bombs. The case was suddenly halted with the arrest of a few suspects in June 2001 even though there was sufficient evidence that some of the people who were attempting to buy these weapons had connections with the Taliban, Al-Qaeda and Osama Bin Laden himself. The 9/11 Commission refused to contact Mr. Stoltz, despite attempts made by several witnesses from the intelligence and law enforcement communities and 9/11 Families, such as the Jersey Moms, who pressed for an official investigation into 9/11 in the first place. *10
11. **Norman Mineta**, the United States, Secretary of Transportation who gave testimony before the 9/11 Commission indicating what clearly could have been a stand down order given by Vice President Dick Cheney while in the President's bunker as an airplane approached the Pentagon. According to this testimony the Vice President was in the bunker much earlier than he represented and the VP is described as angrily admonishing a young officer who repeatedly asks Cheney, "Does the order still stand?" as they watch what presumably is Flight 77, on the radar screen, go into the Pentagon *33Mineta's expert testimony was omitted from the 9/11 Commission report. *11
12. **Sibel Edmonds**, a former FBI Language Specialist worked in the Washington Field Office with Top Secret clearance performing translations dealing with Turkey, Iran and Turkic speaking Central Asian countries for counterterrorism and counterintelligence. She testified for three and one half hours, behind closed doors, before the 9/11 Commission about the sabotage of the FBI's translation program dealing with terrorism, by spies within the FBI, and the theft of hundreds of pages of top secret material by her supervisor to unknown recipients. She was only allowed to testify after 9/11 family members intervened directly. Her testimony was completely censored. *12

- 13. Mike German**, an FBI Special Agent in Counterterrorism who served sixteen years in that capacity, and actually prevented acts of terrorism in the United States. He contacted the 9/11 Commission in the spring of 2004, in order to provide the 9/11 Commission with certain counterterrorism investigations he had pursued as well as links between certain domestic and international counterterrorism related to the September 11th attacks. In 2002 he had reported gross mismanagement in a post 9/11 counterterrorism investigation which included serious violations of both FBI policy and federal law. The 9/11 Commission refused to acknowledge his request to testify before the Commission and never interviewed him.
- 14. John Vincent**, FBI retired Special Agent, Counterterrorism worked for the FBI 27 ½ years before retiring in 2002. His last eight years he worked in FBI Chicago Field Office with Robert Wright and exposed inefficiencies within the FBI in working counterterrorism cases, and certain warnings they had tried to pursue prior to the 9/11 attacks that were directly related to Al-Qaeda's financial network and money laundering activities. Although he was granted an interview the 9/11 Commission investigators refused to let him provide them with information related to his case and the 9/11 network, and insisted on limiting the interview to only administrative and irrelevant questions and issues. *14
- 15. Behrooz Sarshar**, FBI former language specialist worked the Washington Field Office with Top Secret clearance performing Farsi translations for counterterrorism and counterintelligence operations dealing with Iran and Afghanistan. He had first-hand information of prior specific warning obtained from a reliable informant in April 2001 on the terrorist's attacks of September 11. He contacted the 9/11 Commission about testifying but his request was initially refused. He was given an interview with 9/11 investigators only after family members intervened directly. However, his documented testimony was completely omitted from the 9/11 Commission's final report, despite his case being publically confirmed by FBI Director Mueller's office. *15
- 16. Gilbert Graham**, FBI retired Special Agent, Counterintelligence, worked the Washington Field Office Counterterrorism Division until 2002. In February 2004 his name and contact information was provided to the 9/11 Commission as a key witness with information pertinent to the 9/11 investigation. The 9/11 Commission refused to follow up and never contacted him. *16
- 17. Bogda Dzakovic**, FAA, had worked for the Security Division of the Federal Aviation Administration since 1987 as a Special Agent, as a Team Leader in the Federal Air Marshals, and from 1995 until September 11, 2001 was a Team Leader of the Red Team (terrorist team). He tried for several years prior to the 9/11 attacks to improve aviation security in the face of the ever-increasing terrorist threat. He provided the 9/11 Commission with his testimony and documented reports. His testimony and report to the 9/11 Commission was completely omitted from the final report. *17
- 18. Linda Lewis**, USDA, retired Emergency Programs Specialist worked for thirteen years evaluating and coordinating federal, state and local preparedness for nuclear, radiological and chemical weapons emergencies. Prior to September 11, 2001, she had reported numerous inadequacies and dysfunctions in emergency preparedness, including a culture of intimidation that discouraged federal evaluators from reporting inadequacies in state and

local plans and preparedness. USDA officials had prevented her efforts to bring in terrorism experts to help the agency prepare for attacks on federal buildings, including bio-weapons attacks, such as the anthrax attacks of 2001 which included Hamilton and Princeton, NJ. She also urged FEMA officials to develop a national emergency communications plan and require interoperability of federally funded emergency communications equipment. In the absence of these preparations, New York City fire fighters and police officers were unable to communicate critical information on September 11 at the WTC. She contacted the 9/11 Commission and offered to provide information regarding dysfunctional government preparedness, but the Commission never responded. *18

19. **Mike Burton**, NSA Senior Analyst who served as an all-source threat analyst in NSA's premier threat document, the 300+ page ISSO Global Threat Summary, and was an adjunct member at the NSA National Cryptologic School. He provided dozens of pages of relevant information to the 9/11 Commission, but was completely ignored and never asked to testify. *19
20. **President George W. Bush** must be called to testify under oath in public, sequestered from Vice President Cheney, instead of privately, without swearing an oath, without his statements being recorded and without former Vice President Cheney in attendance. President Bush's statements regarding seeing a live broad cast of the first airplane striking the North Tower when there was no television coverage documenting this event at that time must be transparently explained and accounted for. President Bush left the school he was in at the time of the World Trade Center attack, only after hearing that the Pentagon had been struck, causing children, teachers and the nation to be in greater danger as the president is always a primary target under such an attack. This behavior must be accounted for. Investigate the false claims by the Bush administration and military that U.S. intelligent agencies had not contemplated the scenario where a hijacked airplane could be used as a missile to strike a structure like the Pentagon or World Trade Center Tower. *20
21. **Vice President Richard Cheney** to testify under oath in public, sequestered from President Bush, instead of privately with no recordings, without an oath, and in the company of President Bush. The USAF war games on 9/11, which precisely mimicked the 9/11 attack, must be investigated – Cheney was in charge of these war games. The stand down order that Cheney apparently gave as an airliner is approaching the Pentagon also needs to be investigated. *21
22. **Secretary of Defense, Donald Rumsfeld** to testify on his activities during the 9/11 events, his statement concerning United Flight 93 out of New Jersey being shot down, and his announcement of the \$2.3 trillion missing from the defense budget made the day before 9/11. Suspension of the NORAD/NEADS emergency protocols two months before 9/11 and reinstatement of this protocol the day after 9/11, on September 12, 2001. *22

36. **Ralph Kolstad**, Top Gun naval pilot, navy combat fighter and instructor stated he could not make the maneuvers represented to have been made by the alleged terrorist and that the plane would have erupted in flame when it hit even one light pole but the official story claims it hit five light poles even though the plane's wings are filled with air plane fuel. *36
37. **April Gallop** was a top secret military specialist who experienced a massive explosion in her office at the Pentagon and was able to locate her young child covered by debris and leave

 40. **Condoleezza Rice**, who was the Bush administration's National Security Adviser at the time of 9/11, claimed no one could have imagined the use of hijacked airplanes as weapons against buildings when she was fully advised of NORAD exercises which were in part simulating the use of hijacked airplanes at the very time 9/11 was actually happening in real time.*40
 41. **Richard Clarke**, Counter Terrorism Advisor who was sharply critical of the Bush administration attitude, especially Vice President Richard Cheney and then National Security Adviser (who later became Secretary of State) Condoleezza Rice before 9/11, regarding terrorist attacks on the United States, and who received notice of a crashed airliner on the Ohio/Kentucky border on 9/11. *41

The calls were later said by the FBI never to have happened. Cell phone communication from high altitude did not yet exist. *44
 45. **Michael White**, Mayor of Cleveland, Ohio who stated that a Boeing 767, reported to have been hijacked and with a bomb on it was in a secure area at the Cleveland/Hopkins airport. It is believed that this is a reference to United Flight 93. *45

B. The 9/11 Commission obstructed an investigation when they failed to compel the production of essential items of discovery, and failed to subpoena and demand release.

1. 28 page section of the Congressional Joint Inquiry headed by former United States Senator Robert Graham, (Florida), allegedly documenting a major Saudi connection to funding of terrorists involved in 9/11 while being harbored in safe houses within the United States which was suppressed by the Bush administration and now by the Obama administration despite the promise of releasing the 28 pages. An account of an investigation into this matter must take place. *1

3. Black boxes which were recovered from the airplane crashes on 9/11 and to demand to review and be given documentation of all contents . Investigate the FBI announcement that four black boxes (two flight data and two cock pit voice recordings from WTC were never recovered from Ground Zero area, although firemen have claimed that they are aware that at least three boxes were recovered and in the possession of the FBI, because they gave the black boxes to them. All black boxes must be studied by independent experts. *3
4. Flight Data Recorder (FDR) identification information which the FBI withheld from the National Transportation Department which would confirm the identity of American Flight 77 and United Flight 93. The FDR serial number is like human DNA. The recovered voice recording cock pit black box of American Flight 77, alleged to have struck the Pentagon, the FBI has never released. The Flight Data Recorder (FDR) number which is always released by the NTSB except in this flight, needs to be released to insure that this is Flight 77. *4

He believed that the Bush administration had stymied the investigation of Osama Bin Laden. He headed the investigation into the World Trade Center bombing in 1993, warning United States officials as early as 1995 about the dangers of Osama Bin Laden. He also investigated the bombing of the U.S.S Cole naval ship by Osama Bin Laden in 2000. He thought FBI counter-terrorism efforts were being stymied by the Bush administration and their close connection to the Bin Laden family and oil interests. He retired from the FBI because of his frustrations with their policies and was hired by Kroll Associates to head the security at the World Trade Center two weeks before 9/11. He was killed in the World Trade Center on 9/11. *7

8. Transcribed histories of 118 firemen who heard explosions at Ground Zero. *8

11. The testimony of United States Transportation director Norman Mineta, on disc or transcribed given before the 9/11 Commission but not included in the official 9/11 Commission Report concerning the presence of Vice President Cheney in the Presidential Bunker and a stand down order involving an airplane heading toward the Pentagon. *11

15. Release of all reports and information concerning the airline stock purchases , put options of those who bet on United Airlines and American Airlines stock to decline immediately prior to 9/11 indicating insider information, making millions off the tragedy, including the names of the individuals and or organizations making the bids. *15

16. Blue Print drawings of WTC7 used in NIST report of 2008, but issued in November 2011 through the Freedom of Information Act which show that NIST falsified its report by omitting important safeguards which in fact were on the building and which undermine the fire hypothesis. *16

17. Print out for the Bureau of Transportation Statistics (BTS)web site which lists the flight numbers, destinations, scheduled gates, departure time ,actual gate departure times, and wheels off runway times for all American airlines on 9/11 but which did not list American airlines flight 77 which allegedly crashed into the Pentagon. *17

22. All learned material on cell phone technology and whether it was possible in 2001 to make telephone calls from high altitudes when the technology for such calls did not exist until 2004, considering what the implications for regarding suspects if all the alleged cell phone calls coming from alleged hijacked victims were morphed.*22

A feasibility study on the recovered paper passport of alleged terrorist Satama a-Suquami at the World Trade Center site and alleged terrorist Ziad Jarrah at the United Flight 93 alleged crash site in Shanksville, Pa, and the possibilities of these passports having been planted, considering the profound annihilation of evidence at both sites. *24

25. CIA reports requested by the 9/11 Commission and an inventory and accounting of all destroyed documents. The 9/11 Commission failed to hold in contempt and investigate the CIA, then director, George Tenet, which the 9/11 commissioners, themselves, have openly and repeatedly accused of obstruction of justice for not providing requested documents. According to counter-terrorism expert Richard Clark, Tenet obstructed access to needed documents and according to the Commissioners Tenet had hundreds of tapes destroyed which documented CIA torture. *25

C. The 9/11 Commission Report failed to hold government officials accountable for obstruction of evidence and or gross negligence:

1. Mayor Guliani, NYC officials and state and federal officials responsible for not preserving the crime scene and for the spoliation of evidence at Ground Zero and the shipping of most steel to China before it could be expertly studied. *1
2. Mayor Guliani, NYC officials and state and federal officials accountable for not following the National Standards for Fire and Explosive Investigation? *23 which mandate the investigation for explosions. *2
3. Philip Zelikow, 9/11 Commission Executive who drafted the 9/11 Report which does not mention one word of the WTC 7 collapse in its official report, on the events of 9/11. The fact that a 47 story, 610 high-rise steel framed building collapsed and was not hit by an airplane was not even mentioned in this official report, but was the subject of a less publicized NIST investigation and report. *3
4. Bush administration officials who received prior to 9/11, warnings of an imminent attack by plane from numerous countries including France, Germany, United Kingdom, Italy, Jordon, Morocco, Egypt, Israel and Russia. *4
5. NORAD officials who received notices from the FAA of planes being hijacked but failed to intercept, when interception is a routine procedure performed numerous times each year, instead of placing most of the blame on the FAA. *5
6. NORAD Commander Ralph Eberhart who lied to the 9/11 Commission, giving three different time lines and against whom the Commission seriously considered having contempt charges preferred. *6
7. Condoleezza Rice, National Security Advisor who claimed no one could have imagined the use of hijacked airplanes as weapons against buildings when she was fully advised of NORAD exercises' which were in part simulating the use of hijacked airplanes at the very time 9/11 was actually happening in real time. *7

8. Pentagon officials who failed to shoot down an incoming airplane and for failing to warn the Pentagon employees and evacuate the building. *8
9. FBI supervisors who obstructed investigations into terrorists on United States soil, being performed by FBI agents Coleen Rowley, Robert Wright, and John Vincent. *9
10. Defense Intelligence Agency (DIA) supervisors who obstructed investigation by Lt. Col. Anthony Shaffer trailing terrorists Mohammed Atta in the United States. *10
11. FBI language supervisors who obstructed whistleblowing attempts by Sibel Edwards to report thefts of top secret documents and mistranslations concerning terrorist activities in the United States. *11
12. Then CIA director, George Tenet, who the 9/11 commissioners, themselves, have openly and repeatedly accused of obstruction of justice and whom counter terrorism expert Richard Clark has accused of recruiting 9/11 terrorists. *12

D. The 9/11 Commission and NIST failed to consider an alternative hypothesis to fire in the collapse of the Twin Towers and WTC 7 which appear as the least likely hypothesis.

1. A steel framed high-rise building has never collapsed in the history of fires except on 9/11, because office fires cannot burn hot enough to melt steel even if airplane fuel is involved there is still over 1,000 degree Fahrenheit difference in the 9/11 fires. On 9/11 three giant buildings collapsed, and one was not struck by an airplane. No other hypothesis appears to have been entertained. *1

E. The 9/11 Commission and NIST obstructed an investigation into the causes of the collapse of WTC and WTC 7 when they failed to test for explosions and to consider controlled demolition as a viable hypothesis to the collapse of WTC complex and WTC 7 which appears as the most viable hypothesis for the collapse

1. The Twin Towers collapse showed signs of explosions including melted steel, mid-air pulverization of 90,000 tons of concrete and steel decking, pyroclastic clouds, rapid onset of complete collapse, symmetrical "structural failure" through the path of greatest resistance, at free fall acceleration, lateral ejections of multi-ton steel sections, squibs, dismemberment of the entire steel structure.
2. Ground Zero dust samples analyzed by independent scientists, Stephen Jones, Niels Harrit and others have found the energized explosive pyrotechnic material, nanothermite, a high grade military incendiary in all four dust samples. (But the federal government investigators refused to test for explosions)
3. The presence of nanothermite has potentially been implicated by research results of a study of the lungs of 9/11 first responders - in the form of carbon nanotubes. The presence of nanothermite in 9/11 dust opens up an entirely new avenue of investigation into the health

risks of ground Zero to the first responders – that of Nano thermite exposure, absorption and ingestion by 9/11 first responders. The Zadroga Act came about based on the autopsy of New Jersey resident and New Jersey born NYPD officer James Zadroga. This autopsy, which took place in Ocean County, New Jersey, in our view, requires New Jersey officials to examine the presence of nanothermite in 9/11 dust which was the determining factor in Zadroga's death. Carbon nanotubes have since been documented to be present in both the lungs and in the dust of 9/11, by a medical team from Mt. Sinai Research Hospital in NYC. The title of this peer reviewed research is Case Report: Lung Disease in World Trade Center Responders Exposed to Dust and Smoke: Carbon Nanotubes Found in the Lungs of World Trade Center Patients and Dust Samples . According to the testimony of the lead scientist on the nanothermite research, noted above (point D), during the Toronto Hearings on 9/11, due to the amount and length of these carbon nanotubes their formation is a match, not for fire, but rather a perfect match for nanothermite – because of the extreme temperatures produced by nanothermite, which are far greater than those of fire.*3

4. Debris piles which continued to burn extremely hot and to smoke three months after 9/11 could not be put out by water. Nano thermite creates its own oxygen and can burn under water.*4

F. The NIST Report obstructed an investigation into their cause of WTC 7 collapse as fire when they omitted from their analysis safeguard mechanisms which existed on the building, and which would have prevented a collapse by fire.

1. NIST misrepresented the blue prints of the WTC 7 building and made conclusions on the cause of the collapse as fire by omitting safeguards which were actually on the blue prints, such as stiffener plates, and beam stubs, the existence of which would have prevented the NIST scenario of collapse. This omission in the NIST report amounts to outright deception and fraud if intentional and or gross negligence. WTC 7 drawings were kept concealed since November 2008, and only released because of Freedom of Information Act in November 11, 2011. The fire hypothesis can be considered only if pertinent structural details are omitted from the collapse initiation mechanism. As these safeguards did exist, NIST fire hypothesis fails. Their report is a fraud.*1
2. WTC 7 fell at free fall speed for 110 feet or eight stories at 2.3 seconds which is incompatible with a building allegedly falling because of fire, but is consistent with a building collapsing from explosions. NIST reluctantly agreed on the free fall for eight stories, but still maintained its fire hypothesis.*2
3. Jane Standly, BBC reporter who on a life link between NYC and London announced the collapse of WTC 7, 26 minutes before it actually happened, and while it stood in the NYC city

skyline behind her which is indicative of inside knowledge as it would take weeks to rig a building with charges for such a symmetrical collapse.*3

4. There were witnesses to explosions in WTC 7 including even in the morning hours over seven hours before the building eventually collapsed. Barry Jennings was a key witness who witnessed explosions and who mysteriously died in 2008, only two days before the NIST report was released. NIST maintains total silence regarding Barry Jennings account of explosions, and being trapped in the building because of them before being rescued by the fire department.*4
5. NIST as an organization were aware and expert in nanothermite, and its use in explosions, but never considered it as a hypothesis to consider.*5

G. The 9/11 Commission Failed to properly investigate the Pentagon attack

1. They failed to consider pre placed explosives at the Pentagon and to mention the reports of massive explosions going off inside the Pentagon . These explosions appear to have been as follows:
 - a. Explosion at 9:30 in Wedge 2 where April Gallop escaped.
 - b. Explosion at 9:31:40 Navy area clock stopped on second floor.
 - c. Explosion at 9:32:30 heliport clock stopped when incoming white plane turned into a fireball, just outside the Pentagon , 150 feet north of alleged impact area.
 - d. Explosion 9:34:10 diesel trailer fire.
 - e. 9:43 massive orange fireball at the Naval Command Center alleged to be the impact area of American Flight 77.
 - f. 9:48 another explosion per security log.
 - g. 10:00 explosion inside along columns alleged to be on “penetration path” causing Wedge E-ring to collapse over “Impact point *1
2. They failed to subpoena and call witnesses who heard and felt explosions at the Pentagon.*2
3. They failed to mention the explosion of a smaller white plane which exploded into a fireball on the Pentagon lawn area near the heliport but outside the Pentagon and approximately 150 feet north of the alleged impact area.*3
4. They failed to account for support pillars at the Pentagon which were blown outward and not inward.*4
5. They failed to account for Pentagon floors which seemed to have been blown upward.*5
6. They failed to identify even one part of American flight 77 inside the Pentagon, including the failure to locate two six ton steel and titanium engines.*6
7. They failed to review the Bureau of Transportation Statistics web site (BTS) which gave flight information for all American Airline flight on 9/11 except for Flight 77 were there was no listing.*7

8. They failed to consider the scientific and mechanical possibilities of a large commercial airliner flying almost at ground level and the air drafts under the wings which would not allow it to hug the ground or whether there would be stalls at 530 mph.*8
9. They failed to ascertain why if American Flight 77 struck the Pentagon mostly on the first floor, at the alleged impact area the huge engines which were fixed beneath up to nine feet the wings did not gouge the lawn.*9
10. They failed to consider how a commercial airliner could strike five lamp posts without the wing, which stores the jet fuel, exploding.*10
11. They failed to consider whether the alleged hijackers could make the aerial maneuvers which the alleged hijacker, a novice pilot is said to have made.*11
12. They failed to investigate the earlier reports that American Airlines Flight 77 being monitored from Indianapolis, Indiana, and was said to have disappeared below 6,000 feet as was believed to have crashed or landed in the tri state area of Ohio, Kentucky and Pennsylvania.*12
13. They failed to consider whether the Naval Control Center which was investigating the missing \$2.3 trillion dollars, and which appears to have taken the major impact at 9:43, and which killed all but one of its investigating staff was targeted.*13
14. They failed to investigate the alleged cell phone call from Barbara Olson, wife of the Solicitor General which related that Flight 77 was hijacked for authenticity as the FBI later in 2006 admitted that the telephone call never happened.*14
15. They failed to investigate why there was no advanced sirens or official evacuation order at the Pentagon.*15
16. They failed to investigate why the alleged incoming plane was not shot down.*16
17. They failed to establish whether there was a stand down order and when there was an order to shoot incoming flight down.*17
18. They failed to establish the exact time of the impact photo as the time was deleted and a time of next day placed on 5 frames given the public.*18
19. They failed to subpoena the 85 videos and inspect the videos themselves and to have their own expert report on the findings.*19
20. They failed to investigate how the Flight Data Recorder(FDR) could be zeroed out and downloaded 4 hours before the alleged impact, and how in that case the FDR box could not be a FDR from Flight 77.*20
21. They have failed to get the FDR identification numbers from the FBI to match it with Flight 77.*21
22. They failed to investigate the mysterious helicopter lift off just as the white plane was approaching and whether that had something to do with the white plane exploding.*22
23. They failed to examine the parts of the white plane which some witnesses believe was a drone marked up and painted to look like an American Airliner*23
24. They failed to investigate Global Hawk technology concerning possible drones being involved.*24

25. They failed to identify the Chief Financial controller for the Pentagon, Dov Zakheim as the owner of a company Systems Planning Corp. which specialized in producing systems that could remote control planes and destroy them.*25
26. Failed to account for the representation of three exits holes, later changed to one exit hole.*26
27. Failure to consider that the neatly cut exit hole could not have been made by an airplane passing through three thick walled rings and support columns in pristine shape and looking more like the hole was done by a cutter charge according to experts.*27
28. They failed to account for the size of the entry hole which according to Major General Stubblebine, former head of all United States army intelligence was too small to accommodate a large commercial airliner, and which indicated that whatever caused it did not have wings.*28
29. They failed to account for the absence of plane parts of American Airlines Flight 77 and could not even locate its two six tons steel and titanium engines.*29

H. The 9/11 Commission Failed to Properly Investigate Flight 93

1. Failed to account for the scattered debris over an 8 mile area.*1
2. Failed to account for any plane parts belonging to a Boeing 767.*2
3. Failed to match up any plane parts to United 93.*3
4. Failed to investigate United 93's crash from the hypothesis that it was shot down by a missile.*4
5. Failed to mention whether the mysterious Delta 1989 airliner out of Logan airport in Boston which allegedly landed in Cleveland because it was occupied by hijackers and a bomb was part of the Vigilant Guardian exercises that were going on as a backdrop to the 9/11 events.*5
6. Failed to investigate the mysterious plane that may have been flying in tandem with Delta 1989 and whether that plane was actually United 93.*6
7. Failed to confirm which two planes had landed in Cleveland/Hopkins airport, one around 10:10 and one around 10:45, and were parked on the western and southern sections.*7
8. Failed to ascertain whether passengers on these planes disembarked.*8
9. Failed to ascertain whether United Flight 93 had actually landed at the Cleveland airport.*9
10. Failed to investigate the impossibility of the cell phone communication from United Flight 93.*9
10. As the technology did not exist until 2004, but the technology to morph a call did.*10
11. Failed to explain the air phone line used by Tod Beamer which was still active 45 minutes after United Flight 93 was said to have crashed.*11

I. The 9/11 Commission Failed to Follow the Money but stated that who financed the 9/11 events was not of particular significance, which is indicative of obstruction of justice and or gross negligence.

1. \$100,000.00 paid by ISI, Pakistan's secret police chief General Mahmoud Ahmad to Mohammad Atta, General Ahmad was visiting Washington D.C. on 9/11, this visit should be included in an investigation.*1
2. Investigate and subpoena government information of the put options of those who bet on United Airlines and American airlines stock to go down immediately prior to 9/11 indicating insider knowledge, making millions off the tragedy in the process, and release the name of the traders to the public.*2
3. 28 page section of the Congressional Joint Inquiry headed by former United States Senator Robert Graham, (Florida), allegedly documenting a major Saudi connection to funding of terrorists involved in 9/11 while being harbored in safe houses within the United States which was suppressed by the Bush administration and now by the Obama administration despite the promise of releasing the 28 pages. An account of an investigation into this matter must take place. These documents must be released immediately.*3

J. The 9/11 Commission Failed to objectively consider all possible Suspects besides the 19 alleged Muslims said to have died in the airplane crashes although, reportedly, 8 turned up alive, and the reluctance to consider other persons of interest and or all possible suspects amounts to obstruction of justice if intentional and or gross negligence, and renders the federal reports useless as investigatory documents. (should be questioned under oath and cross examination.)

A proper investigation is conducted with an open mind and also looks to individuals and or organizations which had the motive, power and opportunity to commit the crime. The following individuals and or organizations should have come under the scrutiny of the 9/11 Commission.

1. **Project for a New American Century (PNAC)** consisted of a group of men also known as the neo-cons that were expansionists, and desired a war in the Middle-east They coined in their report "Rebuilding America's Defenses", the phrase concerning "the need for a catastrophic and

catalyzing event such as a new Pearl Harbor” These men included : Richard Pearle who allegedly tubbed himself the “prince of darkness”, Paul Wolfowitz, John Bolton, James Wolsey, Zalmay Khalized, Dov Zakheim....*1

2. **Israeli spy ring** of at least 120 individuals posing as art students and their subsequent deportation for visa violations, and the dancing of five Israeli men filming and celebrating on a van roof, the WTC collapse, connected to Urban Moving Systems, whose owner, Dominic Suter, allegedly fled to Israel upon hearing authorities wanted to question him, and the stopping of a van by police on a ramp to the George Washington Bridge loaded with tons of explosives, on 9/11 as well as the detonation of a van on King Street near 6th and 7th Streets during the 9/11 attacks, for a possible Mossad operation, and whether there was any connection concerning foreknowledge of 9/11.*2
3. ISI, Pakistan’s secret police chief **General Mahmoud Ahmad** was involved in a flow of \$100,000.00 to alleged terrorist Mohammad Atta, General Ahmad was visiting Washington D.C. on 9/11, this visit should be included in an investigation.*3
4. **Unnamed interests** who bet on put options to go down in price. **United Airlines and American airlines stock** to go down immediately prior to 9/11 indicating insider knowledge, making millions off the tragedy in the process, and release the name of the traders to the public.*4
5. **Significant Saudi connection**, a 28 page section of the Congressional Joint Inquiry*13 headed by former United States Senator Robert Graham, (Florida), allegedly documenting a major Saudi connection to funding of terrorists involved in 9/11 while being harbored in safe houses within the United States which was suppressed by the Bush administration and now by the Obama administration despite the promise of releasing the 28 pages. An account of an investigation into this matter must take place including the mysterious deaths within eight days of three members of the Royal Saudi family living in the United States who had foreknowledge of the 9/11 attacks.*5
6. **Saudi Ambassador Prince Bander** whose wife was alleged to be funneling money to terrorists in the United States. Bandar has a very close relationship with the Bush family and now heads Saudi Intelligence.*6
7. **Larry Silverstein** made a significant statement regarding pulling the WTC 7 building on 9/11 and he increased the insurance policy two months prior to 9/11 to \$3.6 billion, and was awarded \$4.55 billion for the WTC buildings that needed major asbestos removal. He has close relationship to world Zionism.*7
8. The security company **Securacom**, later known as **Stratesec**, involved with security at WTC, Dulles airport, and United Airlines, which had George Bush’s brother **Marvin Bush**, as a director, and cousin **Wirt Walker** as CEO.*8
9. **Kroll Associates**, which also ran security at WTC, also known as the, “CIA of Wall Street” owned by influential supporters of Zionism, and which was managed by Jerome Hauer, who hired FBI counter terrorist expert and maverick John O’Neill as WTC security head, who was killed on his second day of work at the WTC on 9/11.*9
10. **Jerome Hauer**, director of **Kroll Associates** recommended to President Bush that his administration should start taking Ciprol on 9/11, an antidote to anthrax poisoning, a week before

the anthrax attacks. He was also the NYC Director of Emergency Management who pushed for the Emergency Management Headquarters to be situated on the 23rd floor of WTC 7 which proved to be the worst possible place.*10

11. **Former Vice President Richard Cheney** who appears to have given a stand down order concerning an airplane approaching the Pentagon shortly before the attack on the Pentagon, lied about his whereabouts concerning his arrival in the Presidential bunker, was a member of the Neo Con group advocating United States military expansion, and profited enormously from a war in Iraq where he falsely claimed that there were weapons of mass destruction. Investigate why the United States was at war with Iraq when there were no weapons of mass destruction in Iraq, and Saddam Hussein had represented that he would assist the United States against terrorists, and was not a friend of Osama Bin Laden, and while Cheney's company, Halliburton made over \$39 billion from its involvement in Iraq.*11

12. **Former President George W. Bush** who claimed that he had no fore warning that a terrorist would hijack airplanes and use them as weapons by crashing them into buildings and who initiated the inception of a new police state in the United States through legislation which appears to have been manufactured before the terrorists attacks of 9/11 to include the Homeland Security Act, and the Patriot Act, which are attacks on the American Bill of Rights, and National sovereignty, and who proclaimed a war against Iraq because of weapons of mass destruction when there were no weapons of mass destruction.*12

13. **Black Operations in the United States**, their history and potential use or influence into the events of 9/11. *13

13. **Dov Zakheim** who was Chief Financial Officer for the Pentagon, when \$2.3 trillion dollars was announced to be missing. Secretary of Defense Donald Rumsfeld made this public announcement the day before 9/11. Zakheim owned a company called System Planning Corp. which sold a special proprietary system for controlling planes remotely, and for destroying them. He was also a signatory of the Project for a New American Century. In charge of subsidiary of Systems Planning Corp was Tradata Corporation which oversaw the investigation involving the 1993 World Trade Center bombing and which gained access to the blue print lay out of the Twin Towers. It is, without question, a stunning failure of the 9/11 Commission to have not investigated Zakheim.*14

15. **Philip Zelikow** who was the Executive Director of the 9/11 Commission, a stalwart Bush supporter, a Progress for a New American Century (PNAC) signatory.*15

16. **Shyam Sunder**, Director of the Engineering Lab at National Institute of Standards and Technology (NIST) who headed the government's study on the collapses of the World Trade Center Towers and WTC 7 and who claimed that fire brought the buildings down but who refused to test for explosions and consider controlled demolition, the most likely hypothesis, and who would not admit to numerous statements by witnesses that explosions were going off in the buildings.*16

17. **John Gross**, engineer of the National Institute of Standards and Technology (NIST) who also supported the fire hypothesis, never tested for explosions and claimed there was no molten steel at Ground Zero despite overwhelming evidence to the contrary. *17

18. **Donald Rumsfeld**, Bush Secretary of Defense, who changed the NORAD protocol in June 2001 making intercepts of airplanes more difficult. This policy was changed back to the previous, longstanding protocol, the day after 9/11, allowing then for an expeditious emergency intercept. *18

19. **Condoleezza Rice**, National Security Adviser who claimed that no one could have ever imagined the scenarios of 9/11 - despite having advised President Bush in August 6, 2001 with a Presidential Daily Briefing (PDB) entitled, "Bin Laden Determined to Attack in the United States". *19

K. The 9/11 Commission Failed to Investigate Reported Explosions in WTC 6

1. WTC 6 experienced explosions which were never acknowledged or investigated by the 9/11 Commission. *1
2. A giant explosion was witnessed simultaneously with United Flight 175 striking the South Tower. *2

L. The 9/11 Commission Failed to Investigate Reported Explosions in WTC 4

1. WTC 4 experienced explosions which were never acknowledged or investigated by the 9/11 Commission. *1
2. Over \$600 million dollars in gold and silver is unaccounted for, from WTC 4, but there is no comment or investigation by the 9/11 Commission as to what became of it. *2

M. The 9/11 Commission Failed to examine the anthrax attacks in New Jersey and on Democrat United States Senators Patrick Leahy and Tom Daschle.

*1 Prominent DC attorney **Barry Kissen** has become an expert researcher on the anthrax attacks

O. The 9/11 Commission failed to examine the mysterious death of Democratic United States Senator Paul Wellstone in October 2002 (who opposed the invasion of Iraq) in a suspicious airplane crash a few weeks before the November election and shortly before the Iraqi invasion began, as a possible retaliation, possibly from the above named suspects who may have been involved in the 9/11 crimes. Weapons of mass destruction, used as a pretext to invade Iraq, home of the second largest oil reserve in the world, were never found.

*1. Sen. Paul Wellstone

The untruths which brought our nation into two terrible, lengthy, devastating and, for some, very profitable wars, of which 9/11 was used as a pretext, should and must be investigated as a possible motive for insider involvement in the biggest crime of our nation's history, that of 9/11.

Based on my research and to the best of my knowledge, I David R. Meiswinkle, hereby affirm that the information contained in this document is accurate.

The 9/11 Commission obstructed justice when they failed to call or subpoena key witnesses who had direct and relevant information, pertaining to 9/11, to testify under oath and create an official record, and when they failed to include relevant testimony given, into the official record, thereby creating an adverse inference of bad faith on part of the Federal government. The testimony of these witnesses should be taken, under oath, or their existing written or otherwise recorded testimony be acknowledged, analyzed, investigated, and included in any official record:

*20. All reports on the missing \$600 to over \$800 million in gold and silver from the vault below WTC 4:

An article in the *TimesOnline* gives the following rundown of precious metals that were being stored in the WTC vault belonging to Comex.

- Comex metals trading - 3,800 gold bars weighing 12 tonnes and worth more than \$100 million
- Comex clients - 800,000 ounces of gold with a value of about \$220 million
- Comex clients - 102 million ounces of silver, worth \$430 million
- Bank of Nova Scotia - \$200 million of gold

The *TimesOnline* article is not clear as to whether the \$200 million in gold reported by the Bank of Nova Scotia was part of the \$220 million in gold held by Comex for clients. If so, the total is \$750 million; otherwise \$950 million.

Then Mayor Giuliani has reported \$230 million found.

G. The 9/11 Commission Failed to Properly Investigate the Pentagon Attack

- 1.) They failed to consider pre-planned explosives at the Pentagon and to mention the reports of massive explosions going off inside the Pentagon.**

Barbara Honegger has served as White House Policy Analyst and Special Assistant to the Assistant to the President for Domestic Policy. For over a decade, she was Senior Military Affairs Journalist at the Naval Postgraduate School, the science, technology and national security affairs graduate research university of the U.S. Department of Defense. Prof. David Ray Griffin has said of her groundbreaking investigative work on the Pentagon attack that “it will transform the discussion of what happened on 9/11.”

J. The 9/11 Commission Failed to objectively consider all possible Suspects besides the 19 alleged Muslims said to have died in the airplane crashes although 8 turned up alive, and the reluctance to consider all possible suspects amounts to obstruction of justice if intentional and or gross negligence, and renders the federal reports useless as investigatory documents. (should be questioned under oath and cross examination.)

A proper investigation is conducted with an open mind and also looks to individuals and or organizations which had the motive, power and opportunity to commit the crime. The following individuals and or organizations should have come under the scrutiny of the 9/11 Commission.

15. **Dov Zakheim** who was Chief Financial Officer for the Pentagon, when \$2.3 trillion dollars was announced to be missing. Secretary of Defense Donald Rumsfeld made this public announcement the day before 9/11. Zakheim owned a company called System Planning Corp. which sold a special proprietary system for controlling planes remotely, and for destroying them. He was also a supporter of the Project for a New American Century. A subsidiary of Systems Planning Corp was Tradata Corporation which oversaw the investigation involving the 1993 World Trade Center bombing and which gained access to the blue print lay out of the Twin Towers. It is, without question, a stunning failure of the 9/11 Commission to have not investigated Zakheim.

17. Shyam Sunder, then Director of the Engineering Lab at National Institute of Standards and Technology (NIST) who headed the government's study on the collapses of the World Trade Center Towers and WTC 7 and who claimed that fire brought the buildings down but who refused to test for explosions and consider controlled demolition, the most likely hypothesis, and who would not admit to numerous statements by witnesses that explosions were going off in the buildings.*16

19. Donald Rumsfeld, Bush Secretary of Defense , who changed the NORAD protocol in June 2001 making intercepts of airplanes more difficult. This policy was changed back to the previous, longstanding protocol, the day after 9/11, allowing then for an expeditious emergency intercept. *18

N. The 9/11 Commission failed to examine the mysterious death of Democratic United States Senator Paul Wellstone in October 2002 (who opposed the invasion of Iraq) in a suspicious airplane crash a few weeks before the November election and shortly before the Iraqi invasion began, as a possible retaliation, possibly from the above named suspects who may have been involved in the 9/11 crimes. Weapons of mass destruction, used as a pretext to invade Iraq, home of the second largest oil reserve in the world, were never found.

1.FBI files reveal serious questions about Wellstone's death:

The untruths which brought our nation into an unprecedented loss of liberty for citizens as well as into two terrible, lengthy, devastating and, for some, very profitable wars, of which 9/11 was used as a pretext, should and must be investigated as a possible motive for insider involvement in the biggest crime of our nation's history, that of 9/11.
